

WESTERN NEW YORK TECH SKILLS INITIATIVE

RESKILL AND KICKSTART YOUR TECHNICAL CAREER

Free Education + Technical Skills

UBRI is a partner in a new coalition providing **free tech and digital skills courses** to Western New Yorkers who have been economically impacted by the pandemic.

Launched in response to persistent unemployment and underemployment exacerbated by the pandemic, the **WNY Tech Skills Initiative** offers virtual training that helps connect community members to in-demand skills. The training benefits people interested in careers in technology, as well as those who want to gain digital skills to make themselves more marketable when pursuing jobs in other fields.

Sign up for free course offerings or learn more about additional free online coursework by texting “SKILLS” to 716-710-6901 or [visit the website.](#)
